

The Garage CoWork comes to Winona as part of a partnership between the Winona State University School of Business, the Kabara Institute at Saint Mary's University, Winona's Downtown Main Street Program and the Port Authority of Winona. Garage owner Eric Mullen and his staff provide the community professional office space for remote workers, entrepreneurs and those coming to Winona on business. Contact the Garage for your office needs or to plan your next meeting (conference rooms are equipped with teleconferencing technology).

Please follow this link to the Garage for dates and times for Million Cups events, exceptional programming opportunities, and ways to network with like-minded Winona area businesspeople.
